1. Introduction

This Protocol sets possible foreseen mitigation steps to reduce the risk of infection for those involved in the Cancun Hub during the COVID-19 pandemic, although the risk cannot be completely eliminated. Please note that all stakeholders participate in the competition at their own risk and shall cooperate by complying with these guidelines.

The fundamental principle throughout the events during the COVID-19 pandemic is to protect and be protected by wearing a mask, sanitizing, social distancing, following the event hygiene and COVID-19 protocol and respecting and applying the local governments guidelines and regulations. All participants have the mutual responsibility and respect to protect one-another.

These guidelines should be read in conjunction with the remainder of [BVB Handbook](#), FIVB [Return to Beach Volleyball Guidelines Covid-19](#), [LOCAL GOVERNMENT'S REGULATIONS AND GUIDELINES](#) and the SPECIFIC EVENT REGULATIONS (coming soon) and must be considered as a material term for the participation in the event.

Each National Federation delegation member (athletes, coaches, team officials, physiotherapists, doctors, President, etc.) must have read and understood the latest version of the Protocol for resuming FIVB Beach Volleyball events during the COVID-19 pandemic.

Any event participant must strictly follow the event specific COVID-19 protocols and stay in bubble as requested. Failure in doing so may be removed from the bubble and eventually the tournament.

Please note that this protocol is a dynamic document and will be updated if needed. Organiser and FIVB will monitor changes to local legislation, regulations and government and public health authorities' guidance and review risk assessments, policies, and procedure as appropriate to ensure that compliance with local health and safety law is maintained.

The COVID-19 Protocol hereafter elaborates the actions to be taken by the most important stakeholders of the event considering different phases of the event.

2. Before Travelling

2.1. Entry Visa and Other Important Documents

1. All individuals are required to verify if they need a visa to enter Mexico. If so, please contact Mr Luis Frias at luis@moveo-lab.com and provide him with a good quality copy of passport (PDF or JPEG). The request must be sent to: luis@moveo-lab.com with cancun.hub@fivb.com in copy.
2. Send a copy of your booked/confirmed flight to Mr Luis Frias at luis@moveo-lab.com with cancun.hub@fivb.com in copy. Please also indicate in your communication the names that will stay in the same vehicle that will pick you up and transfer to you to the bubble hotel. The organizer will organize dedicated vehicle for the airport pick-up per team in order to mitigate the risk of close contact between different teams and it is important that the participants indicate clearly such important information while you book for this dedicated transportation to bubble hotel.
3. Send a detailed [accommodation and transport form](#) to Mr Luis Frias at luis@moveo-lab.com with cancun.hub@fivb.com in copy.

2.2. COVID-19 Test Result and Other Required Documents

1. It is mandatory for all participants to provide local organizer with a Negative COVID-19 PCR test certificate. The PCR test must be made a maximum of 72 hours prior to the departure and entering the bubble. The certificate must be in English. Certificate must be issued by authorized health laboratories, and an SMS message is not considered as a valid certificate. The presentation of the negative test certificate is a mandatory pre-condition for travelling and taking part in the competition. All participants must ensure that they will have the test result with them while entering Mexico.
2. **Individuals who have recovered from COVID-19 as well as the ones who have been vaccinated** and their PCR test 72 hours before travel is still positive must verify with the airlines which they use to travel to Cancun (MEX) about the respective airline regulations. If authorized by the respective airlines to travel to Mexico, these individuals will still need to quarantine upon arrival until **a negative test result** is delivered. Such individuals will be responsible for all costs related to their quarantine and COVID-19 test.
3. Only individuals who can present a negative COVID-19 PCR test (72 hours before departure to Mexico) are able to check-in to the bubble hotel and perform the upon arrival COVID-19 PCR test.
4. Present upon arrival a [liability release waiver](#) on the absence of symptoms for at least 14 days per delegate.
5. Important Note: Please note that it is responsibility of each individual to verify specific regulations of the airlines which they will use to travel to Mexico.

3. Entering to Mexico - Arrival

3.1. Necessary Documents

All regular border-crossing regulations must be followed regarding the validity of passports and visas, as applicable for each respective country.

All participants must present Negative COVID-19 PCR test certificate. The PCR test must be made a maximum of 72 hours prior to the departure to Mexico. The certificate must be in English. Certificate must be issued by authorised health laboratories, and an SMS message is not considered as a valid certificate.

3.2. COVID-19 Testing Upon Arrival

At least **one (1) PCR test per** participant will be performed immediately upon arrival at the event bubble hotel.

Once participants collected their luggage, they will be transferred through dedicated vehicle to the event bubble hotel, where a PCR test will be conducted on each individual. All participants must stay in their hotel room until a negative test result is delivered.

The test result will be delivered in 24 hours.

Important contact Information:

COVID-19 Officer & Medical Doctor

Andres Mora: almorto10@hotmail.com, +5213335766065

Hygiene Officer

Maria-Jose Virues, mjvirues@hotmail.com, +5213315630849

Important note: individuals who do not respect this requirement will not be able to enter the event bubble. Refusal of PCR testing will result in removal from participation in the tournament.

3.3. Symptoms After Arrival

Anyone who experiences symptoms after arrival must self-isolate in their hotel room and immediately contact COVID-19 Officer.

COVID-19 Officer & Medical Doctor

Andres Mora: almorto10@hotmail.com, +5213335766065

3.4. Procedures to Follow after The Test Result Delivery*

The ‘upon arrival’ test results will be delivered in 24 hours. During this time and until a negative test result is delivered, all participants must stay in their hotel rooms.

Individuals **whose PCR test result is positive** will be quarantine immediately and must follow the guidelines:

1. They must stay in isolation single room, follow the COVID-19 Officer’s instructions thoroughly and inform him/her should they need medical treatment.

Note: isolation room is a single room part of the event bubble but separated from other participants area.

2. All individuals who tested positive will be tested after 7 days. If the result is positive, they will be tested every 48 hours afterwards until a negative test result is delivered. Once the COVID-19 PCR test is negative, such individuals can enter the event bubble.

Note: As a general principle, the person should be symptom free for at least 2 days to enter or reenter the bubble. Other situations require individual decisions undertaken by FIVB Medical Delegate, COVID-19 Officer/Local Authorities.

3. Organizer will conduct a COVID-19 PCR test on roommates, and anyone identified as close contacts as soon as they are identified. Such individuals must stay in quarantine facilities and follow the below procedure:
 - If test result is positive, the same procedure as positive cases will be applied.
 - If test result is negative, they must stay in quarantine for 3 days and will be tested again. If test result is negative, they can enter the bubble.
 - Persons with symptoms will not be released even if test negative until confirmed by the hygiene officer together with FIVB Medical Delegate.

Note: above procedure will be implemented for all including individuals who have recovered from COVID-19 as well as those who are vaccinated, if they are identified as close contacts.

*For more information of local regulations, click [HERE](#)

Individuals whose COVID-19 PCR test result (upon arrival) is negative will be able to leave their rooms and enter the event bubble. However, they are required to following strict protocols for the first days entering the bubble (Appendix 1) and should they enter the bubble not before the start of the first tournament, they shall follow also strict protocols for the first days entering the bubble and stay in the yellow zone (Appendix 2).

3.5. Entering the Event Bubble

The event (hotels, venue, training courts) will be classified as bubble. Only individuals whose first PCR test (upon arrival) is negative can enter the event bubble (hotel, competition venue, training courts).

People are NOT allowed to leave the bubble as contamination could occur endangering the safety of the event and the health of the participants.

Important note: individuals who do not respect this requirement will be removed from the event bubble and consequently the event.

3.6. Close Contact Definition

Close contact is defined as:

- Being within 1.5 meter of a COVID-19 infected person for more than 15 minutes (if in open space) without face mask or having direct physical contact.
- Being within 1.5 meter of a COVID-19 infected person for more for more than 8 minutes (if in closed space) without face mask or having direct physical contact.

Please note that following is considered as good practice for all medical provider (for example physiotherapists) to following during the treatment with the players and shall be implemented accordingly to be avoid being identifying as close contact:

- Medical provider will provide treatment in outdoor environment wearing KN95 or FFP2 face mask and face shield.
- Athlete being treated also wear a KN95 or FFP2 face mask during treatment.
- Massage tables and any equipment will also be thoroughly sanitized in between athletes treatment.
- The medical provider regularly sanitized their hands/arms in between athletes treatment.
- In case above criteria is respected, an athlete treated by medical staff/physiotherapist will not be considered as close contact should medical staff test positive.
- The same can be applicable if a player treated by the medical provider tests positive, meaning that the medical provider won't be considered as close contact. However, depending on the circumstances, decision of the Medical Delegate and COVID-19 Office will prevail.
- Please note that it is responsibility of the players and medical provider to verify that each person is equipped with the above protection items and that facilities are well sanitized. And the above measurements are promoted as good exercise for all physiotherapists in the bubble to follow.

4. Competition Phase

4.1. General Principles

In view of the pandemic and to mitigate the risk, following policies will be implemented and must be respected by all participants.

1. All individuals participating to the event must wear masks at all time and respect any other established prevention measures at any time during the competition phase, apart from players and Referees who may play/officiate without masks during the match as well as training. Players must wear masks also at the gym, swimming pool. Team Delegations (coaches, physiotherapists, etc.) must wear their mask at all time, including training at the **indoor** gym, during the treatment and during matches, and coaches can remove their masks only during training and warm-up. **For the outdoor gym, where social distancing of minimum 1.5m can be respected, participants can train without a face mask. The minimum 1.5m social distancing must be respected at all times**. Mask may be removed while seated and eating at dining area. The mask must fully cover nose and mouth area and be changed every 3 to 4 hours. All participants must foresee and have enough number of masks with them.

Failure in complying with such requirement may result in being removed from the bubble and eventually the tournament.

All event participants must use FFP2 **and/or KN-95** (preferred) or surgical face masks. Tissue or fabric face masks are **NOT** accepted. **Please make sure you have access to enough face masks to last throughout your stay in Cancun and everyone is responsible for their own supply. Physiotherapist and medical staff must ensure that in addition to face mask, they will have enough face shield with them.**

2. Regular use of hand sanitizer is mandatory for everyone. Organiser will provide hand sanitizer stations in different areas of the event bubble, including all entrances and exits, rooms and offices, toilets, officials working position, players' bench, etc. All participants are requested to have their personal hand sanitizers and use it regularly, especially before entering public area such as restaurant, gym, training and competition facilities.
3. No handshake, hug or any other physical contacts are allowed.
4. All participants must always respect social distancing and maintain 1.5 m distance.
5. Temperature will be checked in different parts of the venue. Everyone must submit themselves to the contactless temperature measurement and give full cooperation with the COVID-19 Officer.
6. All participants including the athletes, officials, team delegates, service providers, etc. are strongly advised to stay in their hotel rooms when not at the competition or training venue or training gym. Individuals must not gather in one room or share/switch their rooms at any time.

Failure in complying with such requirement may result in being removed from the bubble and eventually the tournament.

7. Sanitising hands before entering the transport vehicle is mandatory for all. Organiser will disinfect the transport vehicle after each use.

8. Participants are required to respect the social distancing while waiting for or using transportation. Masks must be worn at all time. This includes while waiting for transport as well as when using the transport. Athletes and team delegations must avoid using the transport shuttle if social distancing cannot be respected.
9. Athletes are strongly advised to avoid any activities with players of other teams. This includes having meals, leisure activities, etc. This applies to the team delegations too.
10. **Important note:** In order to mitigate the risk, players and team officials are not allowed to eat/dine with members of other teams, unless otherwise approved prior by the Hygiene Officer and FIVB Medical Delegate for exceptional reason (such as being family members but in different teams). For such request, please submit to cancun.hub@fivb.com **no later than 1st April.**

4.2. Testing

4.2.1 High Temperature and Other Symptoms

Temperature testing will be conducted daily and in different parts of the bubble. This can be at the hotel, before entering the restaurants, competition or training facilities. Participants' temperatures can be checked at any time whenever deemed necessary. If an individual's temperature is above 37.8:

He/she will be guided to a room with cooler temperature. After 15 minutes, the COVID-19 Officer or local medical staff will conduct another temperature test. Individual must be under supervision of the medical staff at all time. No medication can be taken during this period. If the temperature is dropped, he/she can enter the venue and continue with his/her activities.

If temperature has not dropped, Hygiene Officer will guide the individual to the isolation room where a COVID-19 antigen test will be performed on the concerned person. If result of antigen test is negative, a RT-PCR test shall then be performed as a more sensitive one, and the concerned participant shall be isolated until the respective result is obtained. Until the outset to the final test result, such person shall be considered as being sick. If both test results are negative, the individual can return to the event.

If the result is positive, procedure regarding positive cases must be applied.

Important note: the person concerned must stay in quarantine until a negative test result is delivered.

Procedure regarding individuals who develop COVID-19 symptoms onsite is as follows:

- Step 1: Antigen test shall be performed on all participants who have developed any COVID-19 symptoms as well as any situations in which there are reasonable grounds to believe that a participant has had or does have COVID-19 (e.g., cases of COVID-19 without symptoms).
- Step 2: Upon a negative result, a RT-PCR test shall then be performed as a more sensitive one, and the concerned participant shall be isolated until the respective result is obtained. Until the outset to the final test result, such person shall be considered as being sick.
- If both test results are negative, the individual can return to the event.

4.2.2 COVID-19 Test in the Bubble

In additional to the mandatory COVID-19 PCR test implemented upon arrival at the event bubble hotel, subsequent COVID-19 antigen tests will be performed on all individuals **every 4 days** from their arrival. Individuals will not need to quarantine while waiting for their test result.

- If the test result is negative, individuals can continue their activities and remain in the bubble.
- If the test result is positive, concerned individual(s) must stay in a quarantine and perform a COVID-19 PCR test. If result of the PCR test is negative, individuals can leave the quarantine and continue their activities in the event bubble. If test result is positive, individual must stay in the quarantine and follow COVID-19 Officer instructions.

Both previously infected and vaccinated people must perform all tests, including the 'upon arrival PCR test as well as the regular antigen/rapid tests.

In situations when a participant needs to leave the bubble for necessary medical treatment, an antigen test must be conducted on such individuals before re-entering the bubble. They can join the bubble only if the antigen test result is negative.

If the result is positive, the same procedure described above will be followed.

In addition to the above, a mandatory COVID-19 PCR test will be performed before you exit the bubble. In principle, this PCR test is conducted 48 hours before your scheduled departure flight and please confirm the test time with the PCR testing station either at your entering the bubble, and should there is any change of departure flight, please keep the testing station informed in due time.

If your PCR test result is negative, a certificate will be given to you and this can be used for your departure. And should the test result be positive, individual must stay in quarantine and follow COVID-19 Officer instructions and must not depart from Cancun.

4.3. Procedure Regarding Positive Test Results

All individuals whose test result has been positive must be in isolation and follow the COVID-19 Officer's instructions.

Such individuals will be transferred to their isolation room (located in separate floor marked as Red Zone inside the event bubble hotel).

A COVID-19 PCR test will be conducted on the individuals concerned after 7 days. If the result is negative and the person concerned doesn't show any COVID-19 symptoms, they can re-join the bubble. If not, they will have to continue to stay in quarantine where a COVID-19 PCR test will be conducted on them every 48 hours thereafter. Individuals concerned can end their quarantine only after a negative COVID-19 PCR test result is delivered.

Quarantine facility will be dedicated rooms located in the bubble but separated from the other participants. This is to avoid any contact and reduce the risk, and such area will be marked as RED zone.

As explained, all close contacts will be identified and tested accordingly. **All close contacts must follow the above procedure as well as the COVID-19 Officer's instructions.**

*Further information regarding procedure and local regulations is available [HERE](#)

4.4. Test Cost Coverage

Please refer to the below information regarding test cost coverage:

Covered by the FIVB:

Athletes:

- COVID-19 PCR test upon arrival for all athletes (Main Draw and Qualification)
- Regular antigen/rapid test for all athletes (Main Draw and Qualification)
- COVID-19 PCR test exit test (if required)
- Any tests required due to having symptoms or being identified as close contact

FIVB Officials:

- COVID-19 PCR test upon arrival
- Regular antigen/rapid test
- COVID-19 PCR test exit test (if required)
- Any tests required due to having symptoms or being identified as close contact

One team official per Qualification team:

- COVID-19 PCR test upon arrival
- Regular antigen/rapid test
- COVID-19 PCR test exit test (if required)
- Any tests required due to having symptoms or being identified as close contact

Covered by each individual concerned:

Team officials of the Main Draw teams and any additional team officials of the Qualification Team

- COVID-19 PCR test upon arrival
- Regular antigen/rapid test
- COVID-19 PCR test exit test (if required)
- Any testing cost (either PCR or antigen test) related to re-entering the bubble. (It is important note that the re-entering the bubble shall be approved in advance by the FIVB with justified reasons. For details, please refer to the Event Specific Regulations BVB/06 form)

Please note that for all individuals having symptoms or being identified as close contact, cost of necessary tests will be covered by the FIVB.

Participants are strongly advised against arriving in Mexico before 9 April 2021. Should there be specific reason to arrive to Cancun/Mexico earlier than 9 April 2021, it requires the approval by the FIVB and further hygiene advices will be given to the participants concerned should this be approved.

However, as a minimum, Individuals who arrive in Mexico before 9 April 2021 must perform a COVID-19 PCR test at least 48 hours prior to entering the bubble. Negative result of such a test must be presented to the COVID-19 Officer upon arrival to the hotel. Certificate must be issued by authorised health laboratories, and an SMS message is not considered as a valid certificate.

Cost scheme of Test:

- **PCR Test cost:** USD 105
- **Antigen Test cost:** USD 21
- **Payment method:** Payment must be done onsite in cash or with credit card.

5. Insurance

It is the responsibility of athletes, team delegations and National Federation to ensure that in addition to their normal health and travel insurance they have sufficient insurance in place to cover any COVID-19-related costs. The organizer of the event and the FIVB accept no liability for any claims relating to cancellation of the event due to COVID-19 or medical costs for any COVID-19 related illness as well as isolation/quarantine cost that may affect a National Federation delegation member during the event.

With the joint efforts with local organizer, the cost of quarantine will be covered by the FIVB/organizer for any positive cases during the bubble.

6. Departure

FIVB and local organiser will be able to do the arrangements for the participants who need a negative PCR test to return to their country. To perform such a test, please inform the COVID-19 Officer accordingly.

It is also required for the participants who will perform COVID-19 PCR test upon returning to their countries to share their test result within 7 days of their returning to cancun.hub@fivb.com.

Appendix 1:

HYGIENE PROTOCOL FOR FIRST TOURNAMENT ARRIVALS

A. Upon arrival PCR test

A PCR test will be conducted on all participants upon their arrival at the hotel. The result will be delivered in 24 hours. During this time and until a negative test result is delivered, individuals must stay in their hotel rooms. Room service will be available.

B. Procedure to follow upon receipt of a negative test result for the Upon Arrival Test and until receipt of the first Antigen Test result (4th day after arrival)

Once a negative test result for upon arrival test is delivered, participants can leave their hotel rooms with limited movement allowed and as per the below guidelines:

- Trainings must be pre-booked and participants (i.e., athletes and their team officials) can only leave their rooms for the time allocated to their training. Booking will be through an online system. Training must not take more than one (1) hour per session. If there is available session during the day for training, it is possible to book a second session through training online booking system. Should you train with other teams in the same court, it shall be mutually agreed and please stay in distance and respect good hygiene protocols.
- Physical training at the gym must be pre-booked and participants (i.e. athletes and their team officials) can only leave their rooms for the time allocated to their training. Booking will be through an online system. Training in the gym must not take more than one (1) hour. If there is available session during the day for gym training, it is possible to book a second session through training online booking system. The masks must be worn all time during indoor gym training and for everyone including athletes, coaches, trainers, and other team member staff. For the outdoor gym, where social distancing of minimum 1.5m can be respected, participants can train without a face mask. The minimum 1.5m social distancing must be respected at all times.
- Competition at the competition court and based on the scheduled published.
- Meals at the restaurants: Meals at the restaurants must be booked directly with the restaurants. Participants are expected to leave the restaurant as soon as they finish their meal (maximum 30 minutes).

Note: players of different team are not permitted to eat together at the same table. This is to reduce the risk of being identified as close contact in case of a positive COVID-19 test. This applies for the team officials as well. The above is applied unless otherwise approved prior by the Hygiene Officer and FIVB Medical Delegate for exceptional reason (such as being family members but in different teams). For such request, please submit to cancun.hub@fivb.com no later than 1st April.

Using the pool and relaxation facilities (i.e., beach club, coffeeshop) is not allowed during these days.

Above regulations are applicable to all including players and team officials.

Athletes and team officials must schedule their meeting in outdoor areas and not in their rooms. Such meeting must be in accordance with COVID-19 regulations (i.e., wearing mask, social distancing, etc.). It is strongly recommended to keep such a meeting as short as possible, i.e., 45 minutes.

The above protocols must be respected from the moment you entering the bubble for the first tournament, and can be relaxed only after your first antigen test result is negative (i.e. scheduled 4th day after your arrival).

Once the first antigen test result is delivered, individuals are able to use the outdoor facilities, with respecting and following the hygiene protocols.

Appendix 2:

HYGIENE PROTOCOL FOR SUBSEQUENT ARRIVALS

(YELLOW ZONE)

Below protocol is designed for the ones who will attend the event on and after 16 April 2021 (i.e. once the first tournament starts).

A. Upon arrival PCR test

A PCR test will be conducted on all participants upon their arrival at the hotel. The result will be delivered in 24 hours. During this time and until a negative test result is delivered, individuals must stay in their hotel rooms. Room service will be available.

Note: accommodation for these individuals will be in a building different to the ones arrived for the first tournament.

B. Procedure to follow upon receipt of a negative test result for the Upon Arrival Test and until receipt of the first Antigen Test result (4th day after arrival)

Once a negative test result for upon arrival test is delivered, participants can leave their hotel rooms with limited movement allowed and as per the below guidelines:

- They are accommodated in different floor apart from those participants who join the bubble before the start of the first tournament, and such area is marked as yellow zone.
- Trainings must be pre-booked and participants (i.e., athletes and their team officials) can only leave their rooms for the time allocated to their training. Booking will be through an online system. Training must not take more than one (1) hour per session. If there is available session during the day for training, it is possible to book a second session through training online booking system. Should you train with other teams in the same court, it shall be mutually agreed and please stay in distance and respect good hygiene protocols.
- Physical training at the gym must be pre-booked and participants (i.e. athletes and their team officials) can only leave their rooms for the time allocated to their training. Booking will be through an online system. Training in the gym must not take more than one (1) hour. If there is available session during the day for gym training, it is possible to book a second session through training online booking system. The masks must be worn all time during **indoor** gym training and for everyone including athletes, coaches, trainers, and other team member staff. **For the outdoor gym, where social distancing of minimum 1.5m can be respected, participants can train without a face mask. The minimum 1.5m social distancing must be respected at all times.**
- Competition at the competition court and based on the scheduled published.
- Such individuals must order their meals to their hotel room (room service). They are not allowed to use the restaurant facilities until the first negative antigen test result is delivered.

Using the pool and relaxation facilities (i.e. beach club, coffeeshop) is not allowed during these days.

Above regulations are applicable to all including players and team officials.

Athletes and team officials must schedule their meeting in outdoor areas and not in their rooms. Such meeting must be in accordance with COVID-19 regulations (i.e. wearing mask, social distancing, etc.). It is strongly recommended to keep such a meeting as short as possible, i.e. 45 minutes.

The above protocols must be respected from the moment you entering the bubble after the start of first tournament, and can be relaxed only after your first antigen test result is negative (i.e. scheduled 4th day after your arrival).

Once the first antigen test result is delivered, athletes and team officials will be able to move to the other building facilities (should enough number of rooms be available).

Once the first antigen test result is delivered, individuals are able to use the outdoor facilities, with respecting and following the hygiene protocols.

Appendix 3

CANCUN HUB BE SURE TO FOLLOW THE RULES

WEAR A MASK ALL THE TIME

EXCEPTIONS

- DURING COMPETITION / TRAINING
- DINING AT RESTAURANT

DINE ONLY WITH YOUR TEAM

EXCEPTIONS

- UNLESS APPROVED BY THE FIVB
(* e.g. FAMILY MEMBERS IN DIFFERENT TEAMS)

DO NOT HIDE ANY COVID SYMPTOMS

- REPORT TO HYGIENE OFFICER

DO NOT LEAVE BUBBLE AND RETURN

- ONLY APPROVED BY FIVB

PROTECT YOURSELF AND OTHERS

SANCTION SCALE TO BE ENFORCED FOR ANY 4 KEY VIOLATIONS

- 1ST TIME VIOLATION : OFFICIAL WARNING IN WRITING
- 2ND TIME VIOLATION : MONEY SANCTION OF USD 250-
- 3RD TIME VIOLATION : WITHDRAWAL OF ACCREDITATION AND BEING REMOVED FROM THE BUBBLE

VIOLATION OF ANY RESTRICTED ACTIONS ABOVE IS CONSIDERED ONCE AND WILL BE ACCUMULATED
(*NOT NECESSARY OF VIOLATION OF SAME RESTRICTED ACTION)
